12 Defendants.

No. C17-0853RSL

ORDER DENYING DEFENDANTS'
MOTIONS IN LIMINE AS MOOT

14 This matter comes before the Court on defendants' motions in limine. Dkt. # 134.
15 Defendants seek to exclude evidence related to third-party claims, alleged defamatory
16 statements, irrelevant personal information, discovery disputes, and any argument that
17 defendants "infringed" the copyrights at issue. Because plaintiff's copyright and promissory
18 estoppel claims have now been dismissed, there will be no evidence presented on those claims
19 at trial. The motions in limine are therefore DENIED as moot.
